Subject: Action Recommended: Review Your Shared Document Access

Hi Rohit,

A document was recently shared with your account as part of an external collaboration request. Before access is finalized, we recommend reviewing the permissions associated with the file to ensure they match your intended sharing preferences.

If you were expecting this document, you can review the current access settings using the secure workspace below:

<https://workspace-review-center.com/access>

No changes will be made unless you choose to update the permissions. If you were not expecting this request, you can simply disregard this message and your account will remain unchanged.

For security reasons, pending col
